

# WE ARE HIRING!

## ROLE - PROGRAMME MANAGER

WealthOS is a fast-growing enterprise wealth tech platform that empowers financial institutions, wealth managers, and banks to launch and scale their retail wealth management propositions seamlessly. Our SaaS platform offers middle and back-office features critical for operational excellence in finance/wealth management industries. At WealthOS, we are committed to providing exceptional client satisfaction and operational quality to achieve robust revenue growth.

### KEY RESPONSIBILITIES

- **Programme Delivery** - Lead the end-to-end delivery of strategic programmes, ensuring alignment with timelines, budgets, and quality standards. Monitor and report on programme progress, identifying and mitigating risks and dependencies.
- **Stakeholder Management** - Build and maintain strong relationships with internal and external stakeholders, including senior executives, clients, and delivery teams. Serve as the primary point of contact for programme-level escalations and queries.
- **Leadership and Team Collaboration** - Organise and guide cross-functional teams to achieve programme goals. Collaborate with and mentor technical, operational, and business teams to ensure cohesive programme execution.
- **Agile Practices** - Champion agile methodologies, fostering a culture of continuous improvement within the delivery teams. Ensure agile practices are adapted effectively for large-scale programme management.
- **Steering Committees** - Prepare and present detailed programme updates to steering committees, ensuring transparency and alignment with strategic objectives. Facilitate productive discussions and decision-making during SteerCo meetings.
- **Performance and Quality Management** - Define and track KPIs to measure programme success, ensuring high standards of delivery. Drive adherence to WealthOS's values, including dependability, compassion, creativity, and problem-solving.

### YOU MIGHT BE THE 'ONE' IF:

- You have a minimum of seven years of experience managing large-scale programmes with 50+ personnel in enterprise environments, ideally in fintech/wealthtech, on SaaS platforms.
- You have proven experience in handling global fintech enterprise clients, including complex data migrations.
- You have demonstrated expertise in relationship management and influencing senior stakeholders.
- You are proficient in agile delivery practices and frameworks such as Scrum, Kanban, or SAFe, and are familiar with AWS-hosted platforms and cloud-native technologies.
- You have strong experience in preparing and leading steering committee meetings.
- You have a proven track record of delivering complex programmes on time, within scope, and budget.
- You have exceptional problem-solving skills and the ability to adapt to evolving priorities, excellent communication and interpersonal skills.
- Certifications such as PMP, PRINCE2, or Certified Scrum Master (CSM) are a plus.

# WEALTH OS
